Hi all—

Just wanted you to have the materials for today's budget announcement. The release will be coming out of HQ around 12pm today. Please note that the talking points are for senior leadership only and should be kept close hold. The website linked in the press release (which will include the budget in brief document), will go live around noon as well.

Please let us know if you have any questions.

Thanks.

**Subject:** FY 2020 Budget Highlights

Good morning,

Today, the Office of Management and Budget will present the overall Federal budget for FY 2020, and EPA will release the Agency's FY 2020 Budget in Brief and press release. Attached please find some budget highlights that you may use in conversations with your staff.

This is the first step in the budget process. The Executive branch presents a budget, and Congress ultimately enacts final appropriation levels.

Please do not distribute this document to your staff or any other external party – this is an internal document for your reference only.

Thank you, and please let me know if you have any questions.
